## Colorful "Sumo" canvases to further awaken the desire to escape.

*The continuation of the daring collaboration between Luxair and the street artist, Christian Pearson, alias Sumo, can be admired since Friday 02 July, on the occasion of the reopening of the Luxair Lounge at Luxembourg airport.*

### **"Sumo" moves into the Luxair Lounge at Luxembourg Airport**

The Luxair Lounge, at Luxembourg airport, has been decked by Sumo and a colorful experience, combining the harmony and excellence of Luxair's know-how, with the dynamism and the originality of the artist, is offered to customers. After the flying works of art, it is now time for the works of art hanging on the walls.

Six canvases in bright colors and positive messages, as usual by the Luxembourg artist, are now decorating the Luxair Lounge at Luxembourg airport for the next few months. All these canvases and many more are on sale and the attentive and multilingual staff of the Lounge will be happy to provide all the necessary information on Sumo's works, for those who wish to decorate their interiors with Sumo compositions.

In July 2020, Luxair and Sumo joined forces for an ambitious makeover project. The artist had expressed his creativity through two new white canvases, a Boeing 737-800, registration LX-LGU, and a De Havilland Q400, registration LX-LQA. This worthy representative of contemporary art in Luxembourg, had marked the dynamic relaunch of the airline and together with Luxair, gave customers a unique experience, mixing art and travel, by creating the first flying art galleries.

## **Reopening of the Lounge at Luxembourg airport**

Following a few months of closure to deal with the spread of Covid-19, the Luxair Lounge reopened its doors to customers on Friday, July 02, in strict compliance with the measures put in place by the authorities.

The Lounge offers a top-of-the-range service with exclusive services, to Business Class passengers and Miles & Mores Senator or HON Circle members, because a pleasant journey does not begin on board, but from the very arrival at the departure airport.

The space combines modernity, comfort and elegance.

## **Luxair's chefs prepare the new summer 2021 Business Class menus**

At the start of summer, gastronomy is making a big comeback on board as well. In addition to access to the Luxair Lounge, Business Class passengers can taste and discover, during their flight, the new gastronomic menus developed by the LuxairServices Catering chefs.

In a philosophy of continuous improvement, Luxair decided to develop its catering concept in Business Class and entrusted its development to her chefs. New recipes, conceptualized and produced by Luxair, combine traditional Luxembourg know-how with predominantly local products, presented in Villeroy & Boch tableware, which highlights the national identity, for an even more unique travel experience.
