## Luxair increases its flights' frequency to London City

*Luxair will add an additional rotation to London City, as of 1 March.*

In order to meet the strong demand of its passengers interested in the connection between Luxembourg and London, Luxair is increasing its presence in London City. The national airline has notably just increased its frequencies to London, to five daily rotations, from 1 March 2022.

The fast and convenient connection to the center of the British capital, which Luxair offers, allows a round trip during the day while guaranteeing an unparalleled level of service. From Monday to Saturday, Luxair's De Havilland Q400 will operate the very first departure from London (all airports combined) at 06:30 am (local London time), arriving in Luxembourg at 08:45 am (local Luxembourg time), allowing travelers on a business trip, a full working day on site, combined with a flight at the end of the day. The new frequency will be completed by the flight departing from Luxembourg at 9:10 pm (local Luxembourg time) and arriving in London City at 9:30 pm (local London time), Monday to Friday and Sunday. Following this last flight, the aircraft will park at London City Airport for its departure the next day at 06:30 am.

Luxair started its operations from Luxembourg to London City on 17 November 2003 with a Fokker 50, which marked the beginning of a success story, because if at its launch this destination was mainly appreciated by businessmen, these recent years it has met with growing success with leisure passengers as well.

A dedicated team on site, in London, listens to Luxair customers and constantly provides high-quality service in order to best support and support travelers in each situation and to be able to meet their needs. With the aim of always offering a high standard, Luxair's teams on the ground provide all assistance to passengers before and after the flight.
