Milan-Linate, Praia, La Palma and Ljubljana! Luxair reinforces its flight plan

The airports of Milan-Linate, Praia, La Palma and Ljubljana will be added, from the next winter season, to the destinations already served by Luxair. The reinforcement of the offer and the flight schedules meet the needs of regular travellers, amateurs of discovery weekends as well as travellers in search of sun.

From 29 October 2023, and initially with 2 flights per week, on Saturdays and Sundays, Luxair will land in the heart of Milan, at Linate airport. These two new flights will complement the 14 Milanese connections per week to Milan – Malpensa airport already in place.

Due to its proximity to the Lombard capital, Linate Airport is Milan's "city airport" and in just over an hour's flight, followed by 12 minutes by metro, passengers will reach the city-centre of the Italian economic capital. The enrichment of the Milan service will add even more flexibility to the commuters of the Italian community residing in Luxembourg and in the Greater Region towards their country. Italian fashion and culture enthusiasts, will be able to take advantage of ideal flight times and optimal proximity to the city-centre, to treat themselves to a weekend. Only one night and two full days on site... enough to enjoy a perfect break of 48 hours of shopping and discoveries.

The flights to Malpensa and Linate can be combined with the "Multi-City" option bookable on the Luxair website, allowing travellers to combine their trips between the two airports. Passengers will thus benefit from greater flexibility and optimized frequencies. This solution is a real added value for frequent travellers to and from Luxembourg but also for those seeking for weekends combining breath-taking visits, gourmet getaways and shopping for all tastes.

The opening of sales is scheduled for Tuesday, 25 July 2023.
