Record year 2023: Luxair transports 2.5 million passengers for the first time in its history

Luxair experienced an exceptional year in 2023, achieving a historic milestone by transporting over 2.5 million passengers for the first time. This achievement represents a significant 22% increase compared to the two million passengers in 2022, and also surpasses the pre-health crisis figures of 2019, when two million passengers were transported from Luxembourg airport.

This record performance for Luxair not only eclipses the 2022 figures but also marks a return to and exceeding of pre-health crisis passenger volumes, highlighting a robust recovery and growth trajectory and shows that the quality offered by Luxair as a full-service carrier is well received among its customers in Luxembourg and the Greater Region.

2024: A promising outlook for Luxair with expanded destination network:

As 2024 unfolds, Luxair is serving an extensive network of 94 destinations across 33 countries. This commitment to expansion and connectivity illustrates Luxair's dedication to offering diverse and appealing travel options to its customers.

In 2023, Luxair significantly enhanced its route network, delighting passengers with the addition of destinations such as Pescara, Ljubljana, Milan Linate, La Palma and Praia. These new routes opened up unique travel opportunities for vacationers, business travellers, and explorers.

Highlighting new destinations in 2023:

Pescara: This picturesque Italian coastal city, renowned for its stunning beaches and historic charm, saw winter services operating twice weekly. In the summer, the frequency increased, providing more opportunities to explore Pescara's allure.

Ljubljana: Starting September 14th, Luxair connected travellers to the capital of Slovenia in just two hours. Flights operated twice a week, offering a perfect getaway to this city of rich history and natural beauty.

Milan Linate: Commencing October 29th, 2023, Luxair added its 16th Italian destination. This route, operating on weekends, complemented the existing Milan – Malpensa service, allowing passengers quick access to Milan's city centre.

La Palma: Beginning November 9th, Luxair expanded its Canary Islands service with a weekly flight to La Palma, UNESCO's biosphere reserve known as "La Isla Bonita".

Praia: For the 2023 Christmas season, Luxair introduced flights to Praia in Cape Verde. This seasonal route, operating from December 18th to January 9th catered to the Cape Verdean community in Luxembourg and the surrounding region.

Expanding horizons in 2024:

Luxair has announced two exciting new destinations for 2024: Manchester and Brač. Starting March 29th, Luxair will offer three weekly flights to Manchester, enhancing the connectivity between Luxembourg and the United Kingdom. Luxair stands as the only airline providing direct services to two UK destinations from Luxembourg, including London-City and now Manchester.

From May 4th, Luxair will introduce weekly flights to the enchanting island of Brač in Croatia. Known for its stunning beaches and breathtaking landscapes, Brač is set to become a sought-after destination for the 2024 summer season.

Luxair's continuous commitment:

As 2024 progresses, Luxair remains dedicated to expanding its service offerings, continually seeking to enrich the travel experience for its customers. The airline's focus on connecting Luxembourg and the Greater Region with a diverse range of European and international destinations is a testament to its commitment to excellence in aviation services.
