## Temporary airport runway closure

*Due to the temporary closure of the airport runway in Luxembourg, take-offs and landings have been suspended, leading to disruptions in flight operations.*

Because of unexpected maintenance work, the runway at Luxembourg Airport is temporarily closed until noon. Operations have been suspended, causing impacts on flights.

As flights are suspended until further notice, delays are expected and the flight to Oslo has been cancelled. However, as provisional solutions may be implemented, allowing operations to resume sooner than anticipated, Luxair asks its passengers to arrive at the airport at their originally scheduled time and follow the instructions they will receive via message from the airline.

A temporary solution has already been put in place, reducing the runway, allowing De Havilland Q400-operated flights to take off.

For the moment, the flights affected by the departure from Luxembourg are the following:

- Tenerife
- Las Palmas
- Barcelona
- Porto
- Rome
- Vienna
- Prague
- Venice
- Copenhagen
- Cagliari

Luxair is closely monitoring the situation, refreshments are provided for its passengers waiting at the airport and the airline is ready to resume operations as soon as possible.

If needed, customers can contact 2456 – 1 for further information.

Luxair thanks lux-Airport for the prompt handling of the situation.
