Luxair brings Tirana closer with a new year-round direct connection

Fly direct from Luxembourg to the Albanian capital twice weekly from 29 March 2027

As part of its continued network development, Luxair will launch a new year-round direct connection between Luxembourg and Tirana starting on 29 March 2027. The route will operate twice weekly, on Mondays and Fridays. This new service will establish the first direct flight connection between Luxembourg and Tirana, one of Europe's fastest-growing tourism destinations.

Tirana combines a vibrant city experience with easy access to some of Albania's most attractive regions. From Skanderbeg Square and the lively Blloku district to nearby Dajti Mountain, the city is also a convenient gateway to Albania's coastline, UNESCO heritage sites and the wider southern Balkans.

Albania has seen strong growth in international tourism in recent years, while demand for air connectivity continues to increase. Tirana Airport is also among the fastest-growing airports in Europe, reflecting the country's growing appeal as a travel destination.

The new route will provide the first direct connection for the large Albanian community in Luxembourg and the Greater Region, where there is strong demand for travel to visit friends and relatives. Tirana was identified as one of the biggest markets with potential from Luxembourg as part of Luxair's 2026 market study.

Thomas Fischer, Chief Commercial Officer of Luxair, states: *"The launch of Tirana marks another important step in strengthening Luxair's network. For the first time, we are offering a direct link to the Albanian capital, responding both to growing interest in Albania as a leisure destination and to strong demand from the Albanian community in Luxembourg and the Greater Region. With this year-round service, we are giving our customers greater choice and making travel between Luxembourg and Albania easier and more convenient. It is also another example of how we continue to develop our network in line with evolving customer demand."*

The new **Luxembourg–Tirana flights will be open for booking as of 10 September 2026** on luxair.lu and through the usual sales channels. Fares start at **€129 in Light Fare**, including one cabin bag, and at **€169 in Smart Fare**, which offers greater flexibility with one cabin bag, one free checked bag per person and the possibility to change the booking.
