THE CITY

ventdusud/Shutterstock.com

Historical evidences suggest that refugees founded Venice. When Germanic tribes ravaged northern Italy in the 5th century, many mainlanders escaped to this difficult-to-access area on the Adriatic Sea.

Over the centuries the refugee community grew into the most powerful trading port in the Mediterranean. At its peak, Venice counted 3.000 trade ships and 300 navy vessels. After Napoleon's fall, it became part of the Austrian Kingdom of Lombardy-Venetia, but after the uprising in 1848, the city reached its independence once again. Shortly after, in 1866, Venice was annexed to the Kingdom of Italy. 1932 saw the opening of the motor and rail bridge between Venice and the mainland, which led this city to come out on top as a tourist destination.

It is hard to navigate around the city, but don't let that put you off, as this is part of Venice's charm. Leave the other tourists at St Mark's square and the Rialto Bridge and explore the maze-like little neighbourhoods instead. The most interesting areas and islands are Cannaregio, SanPolo/Santa Croce, Dorsoduro, San Marco and Castello.

DINING

Paul Burdett/Shutterstock.com

Venice has a large variety of restaurants. As usual with Italian cities, the best dining experience can be enjoyed at a simple neighbourhood trattoria off the tourist rabble. Venice has many culinary specialities, like bigoli in anchovy sauce or castraure — tiny artichokes with Parmesan shavings and olive oil.

Make sure to always look at the bottom of the menu to see if a service fee is added to your bill. "Service included" or "12% added/charged" means that another 12% of the total cost will be added to your bill. "Non cover" means no service fee will be included in the price and there will be no additional charge.

Best Time to Visit

The best time to enjoy sightseeing in Venice is mid-spring, particularly the first half of May, when the cold winter gives way to sunny days

and comfortably warm temperatures. With less boat traffic on the canals and calm waters, this season is best for relaxing on a Gondola ride.

If you want to avoid the stress of high tourist season, December through February may do the trick with quiet and peaceful local areas. Low season also provides for discounted accommodation rates. Moreover, the famous

Venetian Carnival takes place annually in February, which gives visitors the chance to join in on the festivities and try on a traditional ornate mask.

Public Transport

The ACTV operates the ordinary buses together with the bus boats, the so-called vaporettos.

Tickets can be purchased at the stations, from

newsstands or on board the boats. There are also several travel cards to choose from, but remember that you need to swipe them before boarding.

If you need to cross the Grand Canal you can catch a traghetto, a large gondola leaving from different places between the bridges.
